PROFESSIONAL SUMMARY

Full-stack software developer with professional experience since 2024 building production web applications for organizational and government clients using Next.js, TypeScript, and Node.js. Skilled in RESTful APIs, secure authentication, and SQL/NoSQL databases, with modern AI-assisted tools (primarily Claude Pro) used to work faster. BS Computer Science graduate seeking a Software Engineer or Full-Stack Developer role.

TECHNICAL SKILLS

- Languages:** JavaScript, TypeScript, Python, Dart
- Frontend:** React.js, Next.js, React Native, Flutter, Tailwind CSS, Bootstrap, Shadcn/ui, Framer Motion
- Backend & APIs:** Node.js, Express.js, RESTful APIs, Auth.js, JWT Authentication
- Databases:** MongoDB, MySQL, Prisma, Supabase (PostgreSQL, Row Level Security)
- Tools & Practices:** Git, GitHub, Postman, VS Code, N8N (workflow automation), Agile collaboration
- AI-Assisted Development:** Claude Pro (primary), GitHub Copilot, Cursor AI, Windsurf AI — for faster coding, debugging & technical research

PROFESSIONAL EXPERIENCE

Mobile App Developer — Cyware Inc. Jun 2026 – Aug 2026

Tech Stack: Dart (Flutter)

- Built the front-end for NutriDepot, a mobile loyalty rewards app where customers earn points on store purchases and redeem them for coupons, items, and discounts.
- Implemented responsive UI across device sizes and tested API endpoints with Postman to verify the app behaved correctly against the backend.

Full-Stack Web Developer — MCS Accounting Oct 2025 – Nov 2025

Tech Stack: Next.js, Tailwind CSS, Supabase, Supabase Auth

- Built structured service sections covering business registration, professional practice setup, corporations, partnerships, and financial advisory to help prospective clients understand offerings.
- Developed reusable, responsive components to display firm metrics and company/team profile content consistently across devices, strengthening the firm's brand identity.

Full-Stack Web Developer — ECCD Online Government Web Application Aug 2024 – Aug 2025

Tech Stack: Next.js (TypeScript), Auth.js v5, Tailwind CSS, MongoDB, Mongoose

- Developed a role-based government web application that replaced a paper-based process for tracking and evaluating daycare centers, reducing manual data-entry errors.
- Implemented secure authentication and role-based access control using Auth.js v5, providing tailored dashboards and workflows for administrators, evaluators, and staff.
- Built logging and record-keeping features for storing evaluation data, and integrated an AI-assisted analysis step to help flag whether daycare centers met government standards.

PROJECTS

Workout AI

Tech Stack: Next.js 15, TypeScript, Auth.js v5, Tailwind CSS, MongoDB, Mongoose, Cohere API

- Built a fitness platform that generates personalized workout plans by calling the Cohere API based on equipment availability, fitness level, and dietary preferences.
- Implemented Google OAuth, MongoDB schemas, and RESTful API endpoints, plus BMI calculation, progress tracking, and an interactive workout timer.

Devcuments

Tech Stack: Supabase, React.js, React Markdown, Tailwind CSS

- Built a documentation platform with Markdown support, syntax highlighting, and real-time preview, with Supabase auth, Row Level Security (RLS), auto-save, and optimistic UI updates.

EDUCATION

Bachelor of Science in Computer Science

STI College Ortigas-Cainta

CERTIFICATIONS

The Complete Full-Stack Web Development Bootcamp — Udemy (Dr. Angela Yu) Mar 2025

Flutter & Dart – The Complete Guide — Udemy (Maximilian Schwarzmüller) Dec 2025

The Ultimate React Course 2024: React, Redux & More — Udemy (Jonas Schmedtmann) Feb 2024

The Complete JavaScript Course: From Zero to Expert — Udemy (Jonas Schmedtmann) Jun 2023
